## Looking for strong d3js experience to add custom changes

Web Development Posted Sep 3, 2020

We are building a network topology diagram. Please see attached screenshot for appx idea of how it looks like. We are using Angular9

1) Unlike typical tree based d3js, their can be lines connecting various nodes and not strictly in tree fashion.

2) Also some nodes need to collapsed and show as... [more](#)

## Cover letter

Hi Angel Caboy,

I am a Angular-ThreeJS-D3js developer with 4+ year of expertise in the field. MY PROPOSAL WILL BE POINT TO POINT, so i will not waste your time.

I have 2+ years of expertise on D3js and ThreeJS field. I have no relative work to show, but i can share you the reference link of use in my past projects.

I would insist to have a interview call OR provide me any task to have a trust on my skills.

Please share me more details for the same, so that i can be confident about the functionality you want.

I can also give you few discount on my payment.Hope you like my skills and have schedule an interview for the same.

Thanks and Regards,
